A MODEL FARMER AT A COST OF LESS THAN \$5

By J. F. BROWN

It is not necessary to have a large amount of money to start a model farm. A few dollars will buy the materials and tools needed to build a simple model farm. The model farm can be built in a few days and will cost less than \$5. The model farm can be used to teach children about farming and the life of a farmer. It can also be used to teach children about the importance of food and the need to conserve resources.

The man in the photograph is a member of the French Air Force. He is standing in front of a large, dark, curved object, possibly a hat or a piece of equipment, over his head. He is looking towards the camera.

United States: Los Angeles

LOS ANGELES, June 10.—The United States Government has announced that it has decided to purchase a number of the latest type of biplanes from the French Government. The purchase is expected to be completed within a few days.

THE CIRCUIT DE L'EST.

THE 25th Anniversary of the first flight of a motor-driven aircraft is being celebrated in France by a series of events which will culminate in the Circuit de l'Est, a series of flights from Paris to the East and back, to be completed by the end of the year. The first of these flights will be made by a biplane, the second by a monoplane, the third by a biplane, and the fourth by a monoplane. The flights will be made by a series of pilots, each of whom will be given a specific task to complete. The first pilot will be given the task of flying from Paris to the East, the second pilot will be given the task of flying from the East to Paris, the third pilot will be given the task of flying from Paris to the East, and the fourth pilot will be given the task of flying from the East to Paris. The flights will be made in a series of stages, each of which will be completed by a specific pilot. The first stage will be from Paris to the East, the second stage will be from the East to Paris, the third stage will be from Paris to the East, and the fourth stage will be from the East to Paris. FRANCE'S CHANGING FRONTIER

THE French Government has announced that it has decided to accept the terms of the Locarno Pact, which provides for the maintenance of the frontiers of France, Belgium, and the Netherlands as they were in 1914. This decision is a significant step towards the reconciliation of France and Germany, and it is expected that it will lead to a more stable and peaceful Europe.
